

Your Energy Transition Partner

Company Introduction
October 2025

World Leading Solar & Power to X Company

A

Public listed company at Shanghai
Stock Exchange

6

#6 in the 2024 Global Top 500 New
Energy Companies

50

Fortune China Top 50 Tech Company

Since 2000, LONGi has Made Great Contributions to the Global Energy Transition

90%

90% cost reduction of solar energy through LONGi. Innovations: RCZ、PERC、Double-glass、BC

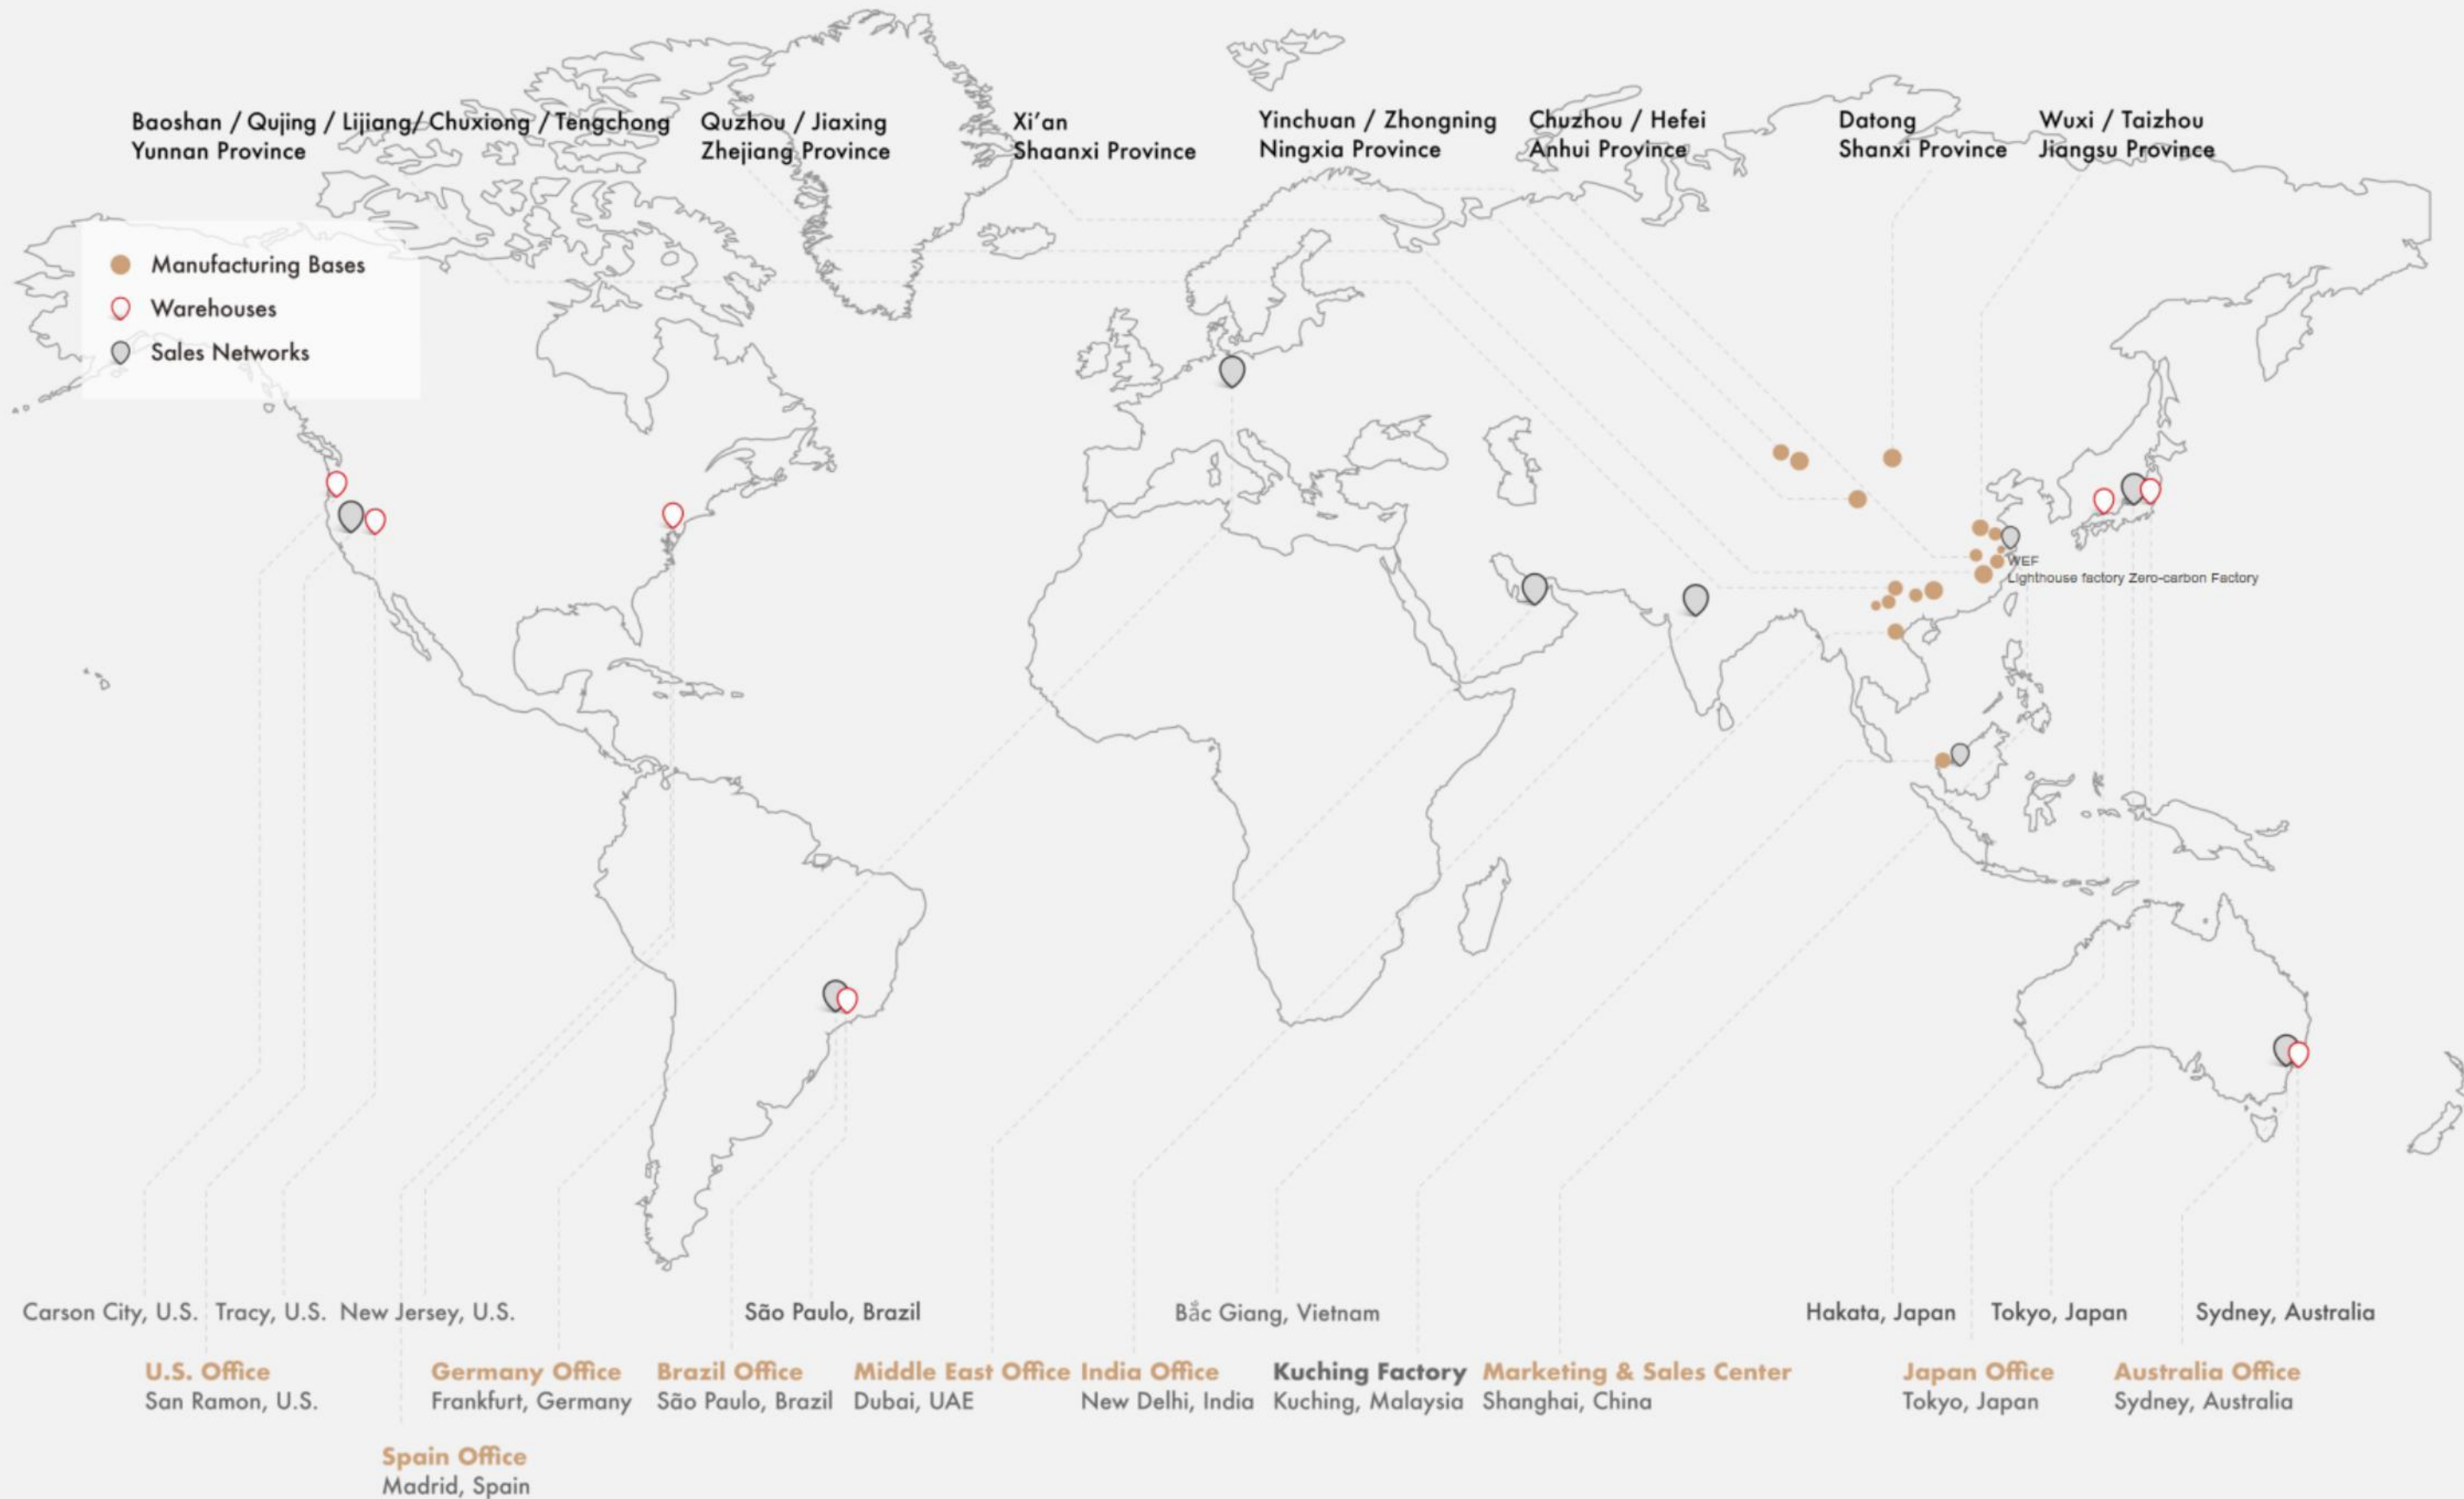

27%

As of the end of 2023, about 27% of the global cumulative PV module installations were based on LONGi technology

1,212

LONGi products have abated 1,212 million tons of carbon emissions globally, equivalent to the annual carbon sequestration capacity of 1.5 Amazon rainforests

Global Footprint Across 160 Countries

Global production sites: China, Malaysia, United States

In 2024, Wafer shipments

108.46 GW

Global wafer shipment cumulation has ranked first for the past ten years

In 2024, Cell & Module shipments

82.32 GW

Modules have ranked among the top two in shipment volume for the past six years

Technology Leadership with Committed R&D Investment

World Record

34.85%

Silicon-Perovskite Tandem
/ solar cell efficiency /

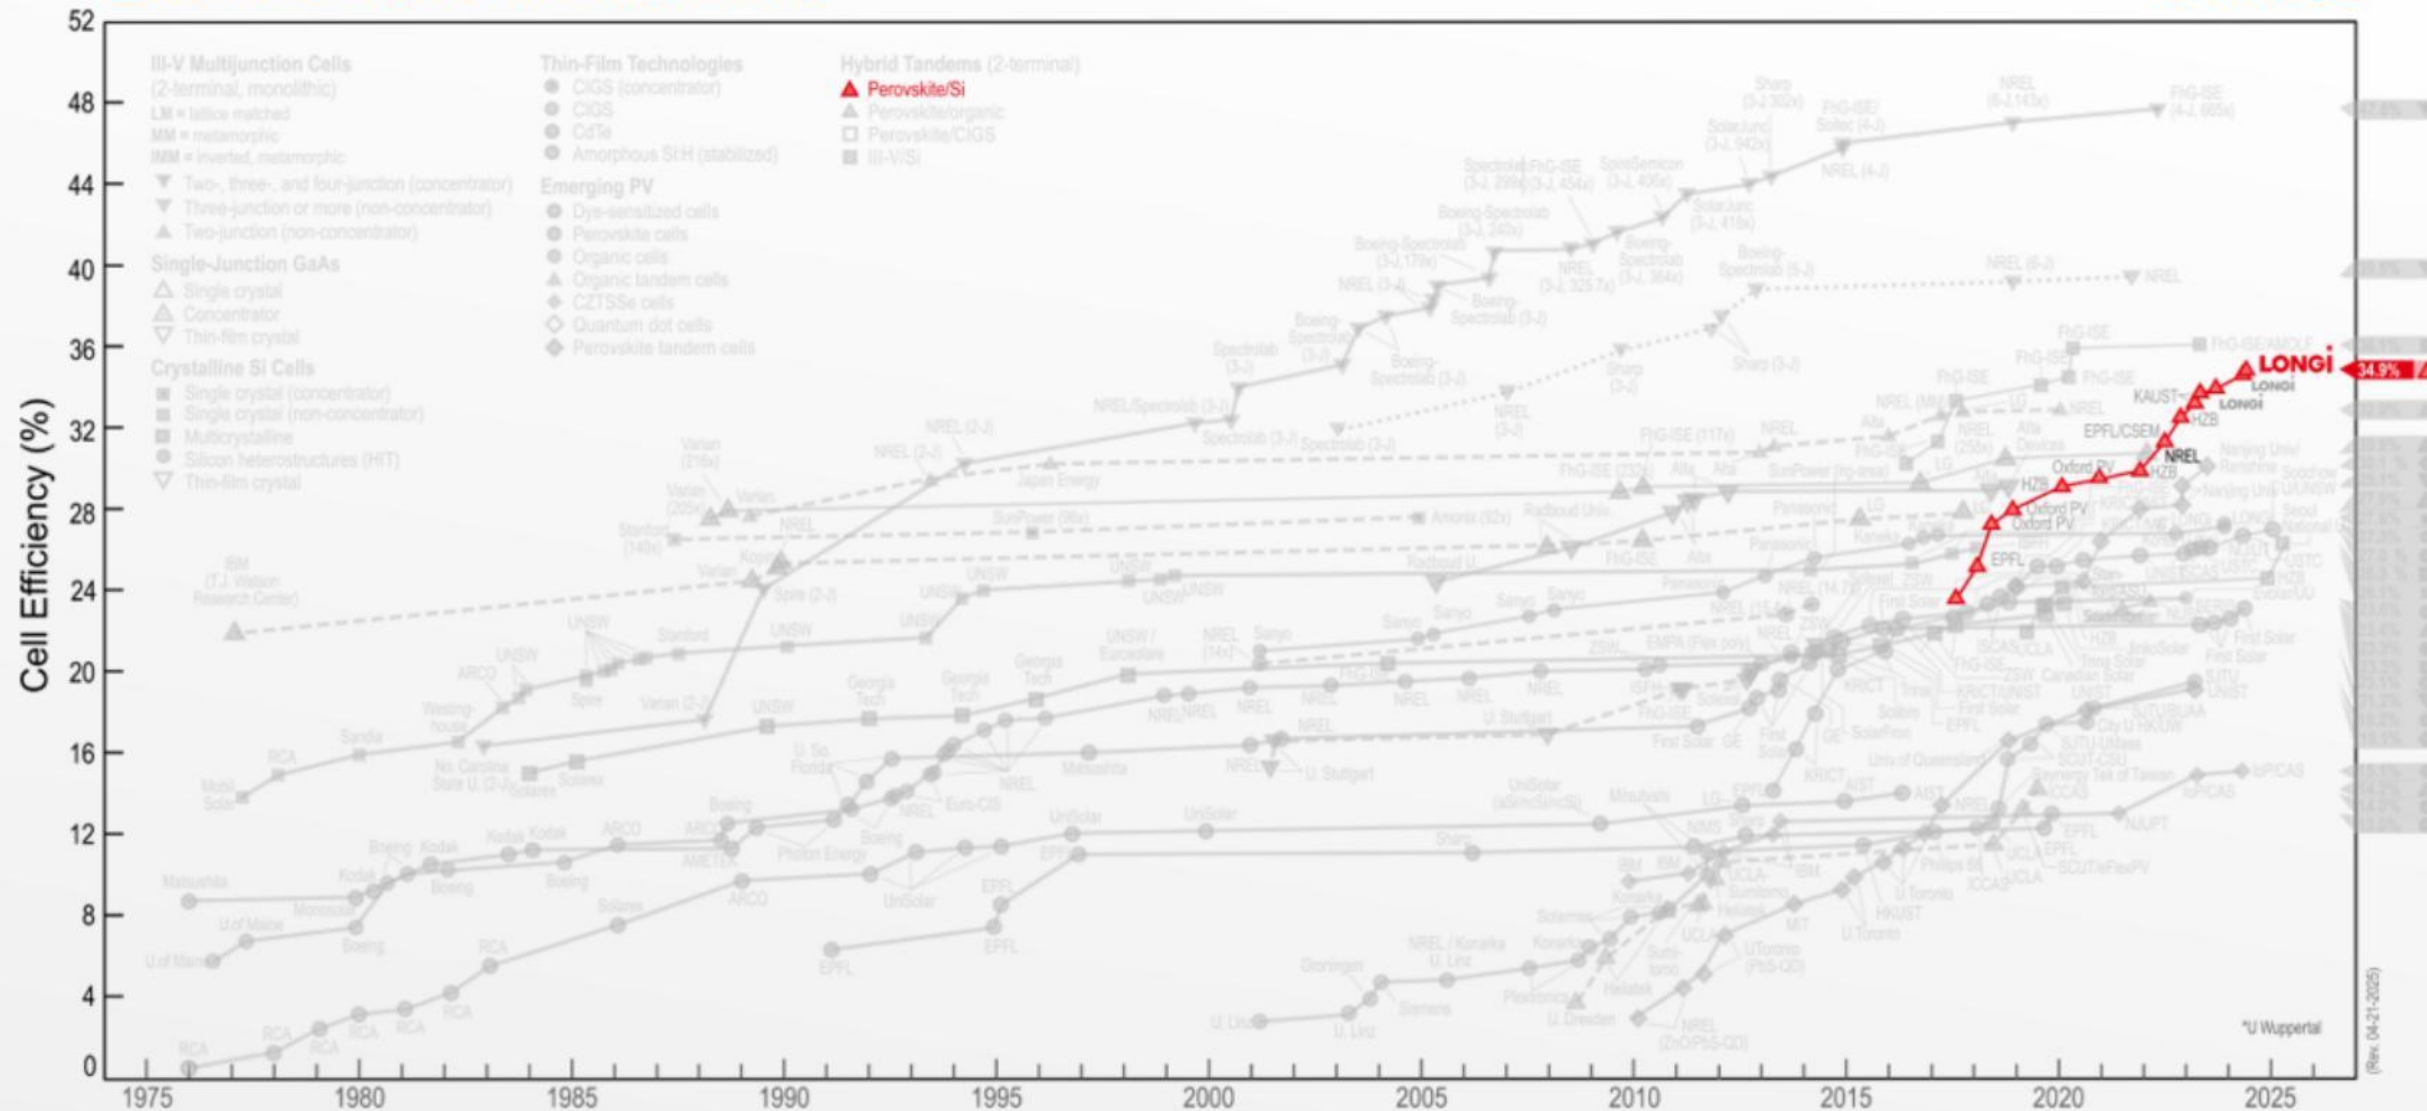

27.81%

Solar PV (BC technology)

Products with highest quality & reliability

LONGi Lifecycle Quality

LONGi has established a quality management system throughout the entire lifecycle of its products

TOP PERFORMER

Awarded as PVEL "Top Performer" module manufacturer for seven years

Ranked first in TÜV Rheinland

Power generation simulation: 2017, 2018, 2021, 2022, 2023, 2024
Outdoor empirical: 2019 - 2024

Intersolar The Smarter E Award

22025 Intersolar The Smarter E Award: Solar & Hydrogen Products

HIGH ACHIEVER in PV Module

Received the RETC Highest Achievement Award for six years

Highest Power Generation

PV Magazine Test
Since June 2018

Financial Performance and Bankability

AAA-rated PV module manufacturer

BloombergNEF

BNEF **Tier 1** PV Module Manufacturer

Adhere to high ESG Standards

GLOBAL ESG RATINGS

COMMITTED TO SUSTAINABILITY TARGETS
